

BAR GRATING

Steel cities steels offers a full range of bar grating products in plain carbon steel, Galvanized, painted black, heavy duty, aluminum and stainless. We also provide Services such as trench measurement, material identification, measurement of Grating/stair treads, and offering load tables. Please consider us for your next Project.

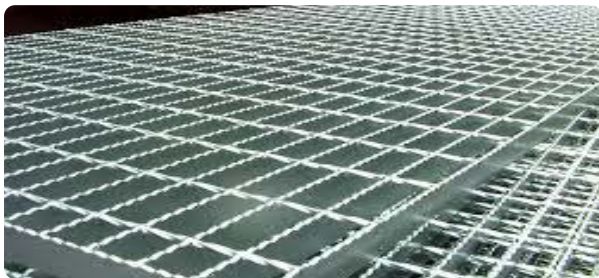

SMOOTH SURFACE-MILL FINISH

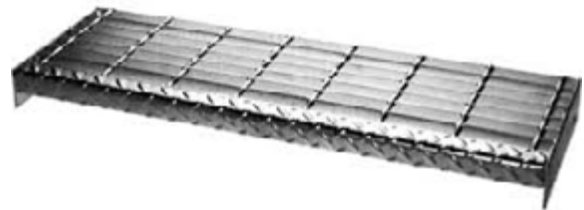

SERRATED SURFACE-GALVANIZED FINISH

Bar grating is the most widely used flooring for stairs, mezzanines, walkways, Catwalks, and trenches. It is very durable for rugged applications where strength, Safety, and cost are considerations.

BANDED AROUND ENDS

STAIR TREADS WITH CHECKERED PLATED NOSING

If you need to replace old, rusty, corroded grating or have an outage, new project, or plant upgrade, please contact us-we make the grating ordering process easy!
